ABOUT ME

Graduating BSIT student with hands-on experience building and maintaining deployed web systems. Currently studying Amazon PPC and eCommerce operations with strong interest in advertising optimization, data analysis, and marketplace workflows. Skilled in troubleshooting, structured problem-solving, spreadsheets, and AI-assisted workflows. Seeking an entry-level Amazon PPC or eCommerce support role where I can continue learning and contribute to campaign operations and optimization.

EDUCATION

Cavite State University – Trece Martires | 2022 – 2026

Bachelor of Science in Information Technology

PROJECT EXPERIENCE

SCCGTI Portal – School Management System | Feb 2026 – May 2026

OJT Project | Deployed and Used by School

- Developed a full-stack school management system using Laravel, PHP, JavaScript, and MySQL
- Built modules for admissions, enrollment, sections, faculty management, and grading
- Implemented multi-role access control and academic year-based data handling
- Created workflows for student assignment and multi-period grading
- Deployed on Hostinger with SMTP integration and handled maintenance and optimization

SCCGTI Portal - School Clinic Management System | 2025 - 2026

Capstone Project | Used by School

- Developed a full-stack clinic management system using Laravel, PHP, JavaScript, and MySQL
 - Implemented patient records, consultation management, and form-based workflows
 - Built responsive UI with modal-based interactions for data handling
 - Applied validation, basic security practices, and structured database design
 - Used AI-assisted tools to improve debugging and development efficiency
-
